SECRETARY'S MESSAGE

Heir to a glorious tradition of learning and scholarship, India today is modern, young, and focused on reinventing itself to take its rightful place among the comity of nations. Demographically speaking, every second Indian is less than 25 years of age today. The vast energy of such a youthful nation is finding creative outlets in all fields- be it education, business, entrepreneurship, defense, sports, governance, etc.

This is the context in which we have to view on education in our country. There is an insatiable thirst for knowledge, skills, and entrepreneurship among the youth of India, as witnessed in the explosion of graduate and post-graduate education, especially professional courses. Their needs can be satisfied only by quality educational institutions with requisite standards in every respect. Delivering anything less will be unjust and unfair to the aspirations of thousands of young hopefuls. We are acutely aware that both BSMT & IIMS students can find complete self-expression in the university's ambiance. We are, thus, rendering every help to make their dreams come true.

It gives me great pleasure to commend BSMT & IIMS to the youth of India.
